

# Employee Status Utility App for the Apple® iPhone

## Employee Status Utility App—for the iPhone

Track your employee's attendance on-the-go with the Employee Status Utility App (ESU) for the iPhone. You'll be able to conveniently see if employees are clocked IN, OUT, sick, on vacation and more. You can also view your employee's current time card and schedule. Checking on your employee's attendance remotely has never been easier!

### Go Beyond Timekeeping

Now you can ensure staff levels are adequate, better manage delinquent punch behaviors and gain added visibility.

at-a-Glance

Quick Access To  
Employee Timecards

On-the-Go Tracking  
from Anywhere!

## App Overview

### Everyday Use

The ESU App for the iPhone gives employers an everyday tool that delivers remote access for viewing labor and attendance.

Beyond "IN/OUT" punch status, supervisors can better manage staff coverage levels by viewing employee time cards and schedules on-the-fly.

### "Real-Time" Data\*

The ESU App is a perfect fit for employers using a FlexClock® with real-time connectivity as punch data is sent immediately to the web for viewing online or on-the-go through your iPhone.

### Features

- Color coded employee list clearly shows employee punch status
- Quick access to employee time cards and schedule
- Filter by IN, OUT, Department, Location, and Supervisor
- Access to *Employee Setup* page
- Refresh status view with one swipe
- Simple, user-friendly navigation

\*Note: Use of the ESU App with the TimeClock Tranz 330/380 clock is not recommended as a "real-time" connection is not available.

## How To Download

### iPhone, iPad and iPod touch

The Employee Status Utility App is available through the Apple App Store for iPhone, but can also run on the iPad and iPod touch where an internet connection is available. Enter keywords "SwipeClock" or "Time and Attendance" to find this useful app. Works with iOS versions 3.2 and up.
